

For 2 or more players or 2 or more teams:

### OBJECT OF THE GAME

Players must guess the song, movie, or TV Show from the ReFraise. Example: "Silent Night" is the right answer to the ReFraise "Quiet evening".

### START OF PLAY

The first team (or player) picks a card and states the category. The ReFraise is then read aloud. The other teams must guess the name from the ReFraise within the 30 second time limit. The first team to figure out the name receives 2 blue chips for a Movie; 2 red chips for a Song; or 2 yellow chips for a TV. If the team(s) or player(s) can't guess the name, they may ask for the hint to be read aloud that is on each card. Once the hint is read, the right answer is worth only 1 chip. If no one gets the answer, then 1 chip is awarded to the team reading the question – blue for Movie, red for Song, and yellow for TV Show. If a team answers a ReFraise in the Movie or TV Show category, they may choose which color chip to receive. If more than one team guesses the name at the same time, then 1 chip is awarded to each team with the right answer. The teams take turns drawing and reading the cards.

*OPTION:* Lose 1 chip for a wrong answer.

### WINNING THE GAME

Play continues until one of the teams or players receives 5 chips and has at least one chip of each color.
