VeggieTales

Seek & Match!

HELP BOB, LARRY, JUNIOR & JIMMY FIND THEIR STUFF!

Goal: The first to collect all character objects

Set-Up: Mix up the character cards and deal to each player. Each Character Card is the player's team mate. Take the Character Card and place it face up in front of you. Choose the Playing Piece that matches your Character Card.

Place your Character Playing Piece on the start space that matches your character.

Mix up the Object Tokens and place them randomly, logo side up, on the white token shapes on the game board.

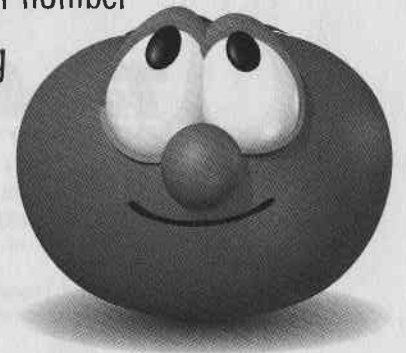

Play: The youngest player goes first. Play passes to the left. Spin the Spinner and move the number of spaces shown. Two players can share the same space on the board. Once you enter the game path you can move in any direction on the board. The **Seek & Match** space in the center of the board can be used like any other space until the end of the game.

When you land on a space with a token, pick up the token and do one of the following:

- A.** If the object on the token matches one of the objects on your card, place it on the same object on your card. Your turn ends and play passes to the player on your left.
- B.** If the token doesn't match the object on your card, show it to the rest of the playes and place it face down on the same spot. Play passes to the player on the left.

Once a token is removed from its space on the board, that space becomes a Free Space. If you land on that Free Space you may move to any space on the game board.

The winner is the first to find all the objects on his/her card and land in the center **Seek & Match** space on the board. You have to gain the exact number from the space you are occupying and you can't use a Free Space move for your final move to the center.
