

How to Flip 'n Find the Veggies!

1. Remove this card and the other purple faced cards from the deck. Shuffle the remaining cards.
2. Line the cards up picture side down in 8 rows of 4.
3. The youngest player goes first. The player flips over any two cards picture side up so all players can see them.
4. A player makes a match if the two pictures are identical. When a player makes a match, he takes the two cards and places them in front of him. The player then takes another turn. The player continues taking turns as long as he is making matches. If he does not make a match, play moves to the player on the left.
5. If a player turns over two cards that do not match, he turns the cards picture side down again in the same place. The play then moves to the left.
6. The game continues until all cards are matched. The players then count up their pairs. The player with the most pairs of Veggies wins!
